

EDUCATION

B.E ECE - Sri Eshwar College of Engineering CGPA:7.10	2024-2028
HSC – Brindhavan Higher Secondary School 91.17%	2023-2024
SSLC – Reena Mercy Matriculation School 65.2%	2021-2022

PROJECTS

CARBON EMISSION AND RENEWABLE SOURCE (on progress) **2025**

Designed and developed a data-driven application to analyse carbon emissions and the impact of renewable energy sources. Collected and visualized data to highlight emission trends across regions and energy sectors. Implemented algorithms to compare fossil fuel usage with renewable alternatives. Integrated interactive charts and metrics to support environmental decision-making. The project promotes sustainability through actionable insights and clean energy advocacy.

ECOCITY (a game project) **2025**

EcoCity Builder is a 2D strategy and simulation game where players manage a virtual city on a college campus, balancing economic growth with environmental sustainability. Players make decisions to reduce carbon emissions, promote renewable energy, and handle real-world climate challenges, all while educating players about environmental issues through interactive gameplay. The game is inspired by the document's focus on managing a city/country, achieving sustainability goals, and incorporating real-world scenarios like deforestation and crisis events.

CERTIFICATIONS

Introduction to C ,C++ and Python SoloLearn	2024
--	-------------

Mastering Data Structures & Algorithms using C and C++ Udemy	2025
---	-------------

ACHIVEMENTS

Shortlisted in SelfE Hackathon to final level held in Sri Eshwar College Of Engineering.	2024
---	-------------

Finalised in GAMEATHON held by our institution (24 hrs hackathon)	2025
---	-------------

CODING PROFILES

Leetcode : Solved 45+ problems | [Link](#)

Skill Rack : Solved 450+ problems | [Link](#)
